ABOUT GBI

Driving is an essential part of work-life for many people, it is a complex and fast-paced activity. There are many safer choices that can be made to make sure that you do not become involved in an incident or road collision when driving for your company. Drivers should consider maintaining their skills and knowledge by undergoing regular refresher training. We, at the academy, don't train people how to drive, but how to improve their driving. Safe-driving policies implemented in the workplace can promote safer driving away from work, also.

- ✓ The academy was established in 2016.
- ✓ Over 4900 trained road drivers.
- ✓ Certified in 2019 as a vocational training institution at AKPA (National Employment & Skills Agency)

OUR PHILOSOPHY

To increase the defensive driving skills and awareness of drivers and general public for road safety in Albania

To engage with all stakeholders to collectively develop a strategy to arrest this increasing trend of serious road accidents

To be a center of excellence in Defensive Driving and Road Safety Training and Leadership development for the Region

To serve as a cutting edge technical learning environment and a great place for learning, reflection and inspiration

To effect a “Zero Harm” culture with the goal of no accidents, no injuries

OUR MISSION

Ensuring a safe work environment through education with the highest standards of performance, creating a modern road culture of driving vehicles and managing the performance of vehicle fleets, through best European practices, being your most consultants trusted.

OUR VISION

Achieving the level of road safety and creating positive trends in the continuous reduction of the number of accidents and their consequences.

FOCUS

*Professional growth of our trusted clients
through updating the acquired
knowledge and awareness of the norms of be-
havior, elimination of bad habits of the driver,
updating with the road legislation and road sit-
uation in Albania,
theoretical and practical training.*

OUR SERVICES

WE PROVIDE

When driving is part of your job duties, whether you are behind the wheel of a rental vehicle, a van, a company car, or an eighteen-wheeler, you are a professional driver. The driving conditions of today's roads and highways demand a higher level of skill, knowledge and decision-making ability. A defensive driver is someone who looks for the mistakes of other drivers; not merely a person who has had the good fortune to avoid accidents. So, remember to drive defensively and practice safety. Don't learn it by accident. Road safety involves not only safe driving techniques, but also proper care of your vehicle and knowledge of how to handle extraordinary circumstances involving you and your vehicle. Vehicle accidents are expensive and training is cheap in comparison.

JOURNEY MANAGEMENT CENTER

A man with a beard and a smartwatch is looking at a large digital display in a control room. The display shows a complex interface with various colored blocks and data. The man is wearing a light blue shirt and has his hand on his chin, appearing to be in deep thought or focused on the data. The background is dark, and the lighting is focused on the screen and the man's face.

Journey management refers to a planned and systematic process of reducing transportation-related risks within a company's operations. The key objective is to minimize unnecessary trips, distances driven, and the risks associated with necessary trips.

GEOTAB

Geotab is advancing security, connecting commercial vehicles to the internet and providing web-based analytics to help customers better manage their fleets. Geotab's open platform and Marketplace allow both small and large businesses to automate operations by integrating vehicle data with their other data assets.

OUR TEAM
